## Koni, Bilaspur - 495009 (C.G.)

# **Scheme and Syllabus**

\*\*\* MOOC's courses should be offered at least one time during entire UG programme in lieu of Core Course. If the core is not available any course similar to Generic elective, Discipline specific elective. AEC course, Skill enhancement course may be offered on MOOC's platform. If any such course related to your subject is not available on MOOC's platform, department may continue with regular courses.

\*\*\*\* The BOS has authorised the chairperson to modify and update the curriculum as and when required and as per the guideline of the university.

FOT

## MATHEMATICAL METHODS IN ECONOMICS-I

#### Course Outcomes

The course hones and upgrades the mathematical skills acquired in school and paves the way for the first semester course Mathematical Methods in Economics I. The analytical tools introduced in this course have applications wherever optimisation techniques are used in business decision-making. These tools are necessary for anyone seeking employment as an analyst in the corporate world. The course additionally makes the student more logical in making or refuting arguments.

#### Course Outline

#### Unit: 1

Variables, constants and parameters; Equations and Identities; Sets and Set operations;

#### Unit: 2

Relations and functions; types of functions: constant & polynomial functions; sequences and series: arithmetic & geometric progression

#### Unit: 3

The derivative and the slope of a curve; process of differentiation; derivatives of first and second order; condition of maxima and minima of a function

#### Unit: 4

Application of differentiation in economics-elasticity of demand, cost and revenues, conditions for profit maximization in perfect, monopoly & monopolistic competitions.

#### Unit: 5

Integration of function- Simple concepts, Consumer and Producer's surplus

#### SEMESTER I

B.A. (Hons.) Economics, Semester-I, Ability Enhancement Course (AEC-1) Course: NSS and Social Economic Development Course Code: ECUATA1 Course Credit: (02)

#### NSS and Social Economic Development

#### Objectives: The main objectives of this course are:

- 1. To help learners know about environmental issues and disaster management.
- 2. To understand the role of entrepreneurship in social development.
- To learn documentation and reporting.

#### Course Outcomes

Learners will learn to appreciate the concerns regarding the environment. They will have the background information to start a venture. They will also be able to prepare a socio-economic development plan.

#### **UNIT 1: Environmental Issues**

Natural Resource Management, Sustainable Development, Renewable & Non Renewable Resources, Environment & Development Trade-off;

#### UNIT 2: Disaster Management

Introduction; Definitions and types of disasters; Disaster Management, Role of NSS in disaster management; Civil defence & Disaster Management

#### UNIT 3: Entrepreneurship

Definition and meaning; Characteristics of Entrepreneurs; Types of Entrepreneurs Types of Entrepreneurship; Entrepreneurs and the Economy;

#### UNIT 4: Funding a Venture

Sources of funding and formalities

#### Suggested Readings:

#### SEMESTER I

B.A. (Hons.) Economics, Semester-I, Skill Enhancement Course (SEC-1)

Course: Money and Financial Market

Course Code: ECUATL1 Course Credit: (02)

#### Money and Financial Market

#### Course Outcomes

This course exposes students to the theory and functioning of the monetary and financial sectors of the economy. It highlights the organization, structure and role of financial markets and institutions. It also discusses interest rates, monetary management and instruments of monetary control. Financial and banking sector reforms and monetary policy with special reference to India are also covered.

#### Course Outline

#### 1. Money

Concept, functions, measurement; theories of money supply

## 2. Financial Institutions, Markets, Instruments and Financial Innovations

Money and capital markets: organization, structure and reforms in India; role of financial Institutions

## 3. Banking System

Indian banking system: Changing role and structure; banking sector reforms.

#### 4. Central Banking and Monetary Policy

Central Bank: Functions, goals, targets, instruments of monetary control; current monetary policy of India.

#### Readings

B.A. (Hons.) Economics, Semester-II, Core-4 Course: Mathematical Methods in Economics-II

Course Code: Course Credit: (4+1)

MATHEMATICAL METHODS IN ECONOMICS - II

#### Course Outcomes

The course provides the mathematical foundations necessary for further study of a variety o f disciplines including postgraduate economics, statistics, computer science, finance and data analytics. The analytical tools introduced in this course have applications wherever optimization techniques are used in business decision-making for managers and entrepreneurs alike. These tools are necessary for anyone seeking employment as an analyst in the corporate world.

#### Course Outline

#### Unit: 1

Linear Programming: Graphical solution and its application in economics, Duality

Matrix: various types, addition and subtraction, multiplication of matrix.

Determinants, singular matrix, inverse of a matrix, solution of simultaneous equations through crammer's rule.

Game theory-simple and mixed strategy, saddle point solution, prisoner's dilemma

B.A. (Hons.) Economics, Semester-II, Skill Enhancement Course (SEC-II)

Course: Environmental Economics

Course Code: ECUBTL2 Course Credit: (02)

#### **ENVIRONMENTAL ECONOMICS**

#### Course Outcomes

This course focuses on economic causes of environmental problems. In particular, economic principles are applied to environmental questions and their management through various economic institutions, economic incentives and other instruments and policies. Economic implications of environmental policy are also addressed as well as valuation of environmental quality, quantification of environmental damages, tools for evaluation of environmental projects such as cost-benefit analysis and environmental impact assessments. Selected topics on international environmental problems are also discussed.

#### Course Outline

#### 1. Introduction

What are environmental economics; Importance and Scope of Environmental Economics.

#### 2. Pollution

Types of Pollution - Soil, Air, and Water, Problems and Prospects of different pollution.

## 3. The Design and Implementation of Environmental Policy

Overview: Implementation of environmental policy.

#### 4. International Environmental Problems

Environmental problems; economics of climate change;

#### 5. Disaster Management and Sustainable Development

Meaning and Importance of Disaster Management, Process and effects on environment,

B.A. (Hon's) Economics, Semester III, Core-7 Course: Statistical Methods for Economics Course Code: SS/EC/C-307 Course Credit: (5+1)

#### STATISTICAL METHODS FOR ECONOMICS

#### Course Description

This is a course on statistical methods for economics. It begins with some basic concepts and terminology that are fundamental to statistical analysis and inference. It then develops the notion of probability, followed by probability distributions of discrete and continuous random variables and of joint distributions. This is followed by a discussion on sampling techniques used to collect survey data. The course introduces the notion of sampling distributions that act as a bridge between probability theory and statistical inference. The semester concludes with some topics in statistical inference that include point and interval estimation.

#### Course Outline

#### Unit I:

Introduction to Statistics Basic concepts: Population, Sample, Parameter, Statistic, primary and secondary data, Techniques of data collection; Questionnaire, schedule.

#### Unit II:

Central Tendency: Measures of central tendency: Mean, Median, Mode,

#### Unit III:

Measures of dispersion; Range, Quartile deviation. Mean Deviation, Standard deviation, Coefficient of variation

#### Unit IV:

Correlation; Simple, Coefficient of correlation — Karl Pearson, Calculation of Correlation coefficient in a bivariate frequency distribution, Spearman's Rank Correlation,

#### Readings

## Skill Enhancement Course (SEC-I)

#### SEMESTER III

B.A. (Hon's) Economics, Semester III, Skill Enhancement Course (SEC-I)

Course: Data Analysis

Course Code: SS/EC/C-(SEC-1)

Course Credit: 4

## Data Analysis

#### Linit 1

Importance of Statistics in Economics, Collection of data

Primary and Secondary Sources of Data, Collection of Primary Data- Interview and Observation Method

#### Unit 2

Types of Sampling-Random Sampling, Purposive or Deliberate Sampling, Stratified or Mixed Sampling, Systematic Sampling, Quota Sampling, Convenience Sampling

#### Unit 3

Classification and Tabulation of Data

#### Unit 4

Diagrammatic Presentation of Data

Bar Diagramme, Simple Bar Diagramme, Multiple Bar Diagramme, Differential Bar Diagramme Pie or Circular Diagramme

#### Suggest Readings:

B.A. (Hon's) Economics, Semester IV, Core-10
Course: Introductory Econometrics
Course Code: SS/EC/C-410

Course Credit: (5+1)

# INTRODUCTORY ECONOMETRICS

## Course Description

This course provides a comprehensive introduction to basic econometric concepts and techniques. It covers statistical concepts of hypothesis testing, estimation and diagnostic testing of simple and multiple regression models.

#### Course Outline

#### Unit: 1

Nature and Scope of Econometrics

#### Unit: 2

Simple Linear Regression Model: Two Variable Case; Estimation of model by method of ordinary least squares;

#### Unit: 3

Gauss-Markov theorem; properties of estimators; goodness of fit-R<sup>2</sup>; tests of hypotheses; confidence intervals; forecasting

#### Unit: 4

Multiple Linear Regression Model: Estimation of parameters; goodness of fit - R<sup>2</sup> and adjusted R2; partial regression coefficients;

## DISCIPLINE SPECIFIC ELECTIVE (DSE-2) PAPERS: ECONOMICS

#### (A) MONEY AND FINANCIAL MARKETS

#### **Course Description**

This course exposes students to the theory and functioning of the monetary and financial sectors of the economy. It highlights the organization, structure and role of financial markets and institutions. It also discusses interest rates, monetary management and instruments of monetary control. Financial and banking sector reforms and monetary policy with special reference to India are also covered.

#### **Course Outline**

#### 1. Money

Concept, functions, measurement; theories of money supply determination.

#### 2. Financial Institutions, Markets, Instruments and Financial Innovations

- a. Role of financial markets and institutions; financial crises.
- b. Money and capital markets: organization, structure and reforms in India;

#### 3. Interest Rates

Determination; sources of interest rate differentials; theories of term structure of interest rates; interest rates in India.

#### 4. Banking System

Indian banking system: Changing role and structure; banking sector reforms.

#### 5. Central Banking and Monetary Policy

Functions, balance sheet; goals, targets, indicators and instruments of monetary control; monetary management in an open economy; current monetary policy of India.

#### DISCIPLINE SPECIFIC ELECTIVE (DSE-3) PAPERS: ECONOMICS

#### (A) ENVIRONMENTAL ECONOMICS

#### **Course Description**

This course focuses on economic causes of environmental problems. In particular, economic principles are applied to environmental questions and their management through various economic institutions, economic incentives and other instruments and policies. Economic implications of environmental policy are also addressed as well as valuation of environmental quality, quantification of environmental damages, tools for evaluation of environmental projects such as cost-benefit analysis and environmental impact assessments. Selected topics on international environmental problems are also discussed.

#### **Course Outline**

#### 1. Introduction

What is environmental economics; review of welfare economics.

## 2. The Theory of Externalities

Pareto optimality and market failure in the presence of externalities; Negative and . Positive Externalities, Property rights and the Coase Theorem.

## 3. The Design and Implementation of Environmental Policy

Overview: Pigouvian taxes, tradable permits, Implementation of environmental policy.

## 4. International Environmental Problems

Environmental problems; economics of climate change; trade and environment.

## 5. Disaster Management and Sustainable Development

Meaning and Importance of Disaster Management, Process and effects on environment, Sustainable Development
