Scope of Work

This Scope of Work has been divided into following four broad phases

A. Pre Examination Phase
B. Examination Phase
C. Post Examination Phase
D. Admission Management
A. Pre Examination Phase
1. The bidder should design the online application for candidates (in English & Hindi) to register themselves for the Test and make online payment of Application Form and to upload requisite documents (minimum six documents).
2. The bidder should make provisions for admit card download. The candidate should be able to download and take a printout of the successfully filled application form also.
3. The bidder is expected to draw the plan and implement the processes also.
4. The bidder would provide the Question Paper Authoring software and train.
5. The Question Paper Authoring software must allow for creating multiple versions of a question paper by jumbling the questions and the choices for a question.
6. The bidder would provide adequately trained Test Administrators (TAs) and Proctors who should be the staff of the selected bidder.
7. The proposal submitted by the bidder should indicate the manner of Exam delivery and the limits to which the system has been tested in terms of number of client systems connected simultaneously without loss of performance in the examination environment.
8. Access to the mock exam to be able to test their connectivity to the system and the software a few days ahead of the exam. The candidate should be able to test the software and get an idea of how the questions will be displayed during the actual exam.
9. Clear and transparent guidelines agreeable by GGV and selected bidder to be given to the students on the activities that are considered as malpractices for a remote proctored online exam.
10. Selected bidder should communicate clear guidelines (on dos and don’ts) to the Test taker well in advance so that the test taker is ready for the remote proctored exam.
11. There should be clear guidelines given to human proctors as to when to hold, re-start and terminate the exam.
12. The software must obtain concurrence of the candidate having read the instructions before start of examination.
B. Examination Phase

1. The selected bidder shall prepare and provide Standard Operating Procedure (SOP) for all processes for safe and secure conduct of examination along with rules for contingency and exception handling/emergency procedures.

2. Selected bidder shall bear all the cost arising due to submission of online application form, conduct of online examination and declaration of results and all other related activities. No other amount will be paid to the selected bidder except the rates approved on per candidate basis in any case.

3. Remote Proctoring (AI & Human proctoring): This activity involves the activation of Remote Proctoring facility for the test takers. This should be on a Real Time basis but without compromising the credibility and security of the test.

4. The Remote Proctoring activity must have the following features:
   4.1 Establish candidate authentication; selected bidder to share the authentication process
   4.2 Check candidate computer hardware, Web camera, microphone, software, surroundings, network, bandwidth etc. as per the Remote Proctored Exam requirements
   4.3 Disabling all Bluetooth devices, all ports, special purpose keys, print-screen, copy-paste features browsers etc. and all necessary precautions.
   4.4 The Remote Proctoring facility should allow for human proctoring through Live Feed of the examination of each candidate
   4.5 Familiarization of candidate to Remote Proctoring, Do’s & Don’ts, Instructions, bio breaks etc.
   4.6 Option to mandate candidate authorization by a remote authorizer before the candidate starts the test
   4.7 Limit allocation of candidates to a proctor randomly and automatically.
   4.8 Proctor should be able to validate the successful completion of the test before result processing and release of final test score to the candidate.
   4.9 Provide quick access to GGV to view Paused/Disconnected candidates.
   4.10 Ability to broadcast/announce messages across all the live test takers.
4.11 Search for any candidate attempting the test.

5. Invigilation during the exam:
5.1 The proctors will compare the facial recognition photo & the photo id card and authorize the students to the exam page. The photo, name, and programme to be verified by the proctor prior to allowing the student in the exam page.
5.2 Monitor the exam taker continuously and provide support till the end of the exam.
5.3 Remote proctors should also ensure proper conduct of examination and ensure that candidates use no unfair means during the exam, as per the details agreed upon by selected bidder and GGV. Details to be displayed on candidate console as part of Exam software during the exam.
5.4 Display of instructions to candidates up on login and before start of examination. The candidate must be able to retrieve instructions at any time during the examination as well.
5.5 Start and closure of the examination at scheduled time (candidates must not be able to start their examination even if they login before the scheduled time).
5.6 Display of remaining time available
5.7 Display of candidate details on the screen (including a photograph if available) during the examination.
5.8 Viewing the complete question paper or a section in the case of sectional papers.
5.9 Switching between sections in the question paper (if applicable).

6. Monitoring:
The exam server shall have the capability to start the examination for all candidates, monitor the status of each candidate (whether logged in, examination started, idle/active, disconnected, submitted, etc.), The server MUST maintain an audit trail of every operation on the server. All server-side audit trails are also the property of GGV and shall be handed over at the end of the examination.

7. Master Control Facility: The exam should be accessible for monitoring by GGV, ably supported by technical personnel who are well versed with the Online Examination Software. At the end of examination in each session, the candidate response data and audit trail data of each candidate to be shared with GGV. The selected bidder should provide the facility to monitor the pre- examination, during examination and post examination activities of all candidates taking exams simultaneously.
C. Post Examination Phase

1. Software that handles post examination operations that includes a consolidated detailed information sheet of all candidates who appeared for the examination, detailed response sheet for every candidate, the audit logs of every candidate recorded during the exam, analytics and basic statistics on the responses obtained.

2. Remote proctored online Computer based exams (MCQ Type exam): The evaluation of the responses needs to be done within 1 day and results shared with GGV in the mutually agreed format;

3. Individual candidate-wise, item-wise responses and audit trail will be captured and shared with GGV. The selected bidder will maintain the data in a secure manner till instructed by GGV to delete the same.

4. The **Counselling** to Final Enrolment / admission includes Data Analysis, preparation of merit list Category wise, State wise and all India basis, Allotment of Departments/subjects as per merit and other criteria defined by GGV, Scheduling of Counselling, Online Counselling support, Facilitation of final selection and completion of admission formalities, final admission reports to GGV, etc. within the stipulated time frame as per schedule.

D. Admission Management

The selected bidders system should be capable of managing entire admission process as defined below.

1. Admission Management should provision and manage key admission activities such as
   - Preparation of merit list Category wise, State wise and All India basis
   - Allotment of Department/Subject as per merit and other criteria defined by GGV
   - Issue provisional admission letter based on GGV defined admission logic / merit list
   - Payment gateway integration for fee payment by candidate to secure admission
   - Issue the final admission letter to the candidate.
   - **The Selected Bidder will provide the data of admitted students in the prescribed format to GGV as decided by GGV.**

2. The key features of Admission Management should be:
   **Admission Workflow:** The set of procedures followed in a proper sequence is to be achieved by creating an admission workflow which should have multi-level execution steps as listed below:
