ACKNOWLEDGEMENT

Throughout the process of writing this dissertation, I received a lot of help and support. I'd like to express my gratitude to those individuals without whom I would not have been able to accomplish my research or complete my master's degree. First and foremost, I would like to thank the Lord "Almighty God" for providing wisdom, strength, tolerance, and knowledge in investigating things, for guiding us in overcoming all the challenges I faced and for making this research possible.

I would like to express my sincere gratitude to my supervisor, **Dr. Harish Rajak** Associate Professor (Pharmaceutical Chemistry), Department of Pharmacy, Guru Ghasidas Vishwavidyalaya (A Central University), Bilaspur (C.G.), a person of enormous knowledge and polite behaviour. He has been supportive from the first day I started working with him; his motivation, direction, and overall insights into this area have made this an inspiring experience for me. I cannot express my feelings in words about how he encouraged and helped me during my project work. He continuously gave his valuable guidance and remained with me despite his hectic schedule.

I am highly gratified to **Guru Ghasidas Vishwavidyalaya** and **Dr. Bharti Ahirwar** Head of the Department of Pharmacy, for approving me to undertake my research work and ensuring all necessary facilities and guidance. This has been a lovely experience at the Department of Pharmacy, Guru Ghasidas Vishwavidyalaya, Bilaspur, at which teaching and non-teaching staff have always been inclined to assist whenever required. I'd also want to convey my gratefulness to our laboratory and library staff, who has given me a wonderful working atmosphere and diligent support throughout the research.

I finally owe my gratitude to my loving parents, **Mr. Khimesh Singh, Mrs. Jyoti Singh** and my brother **Vedant Singh** for their wonderful gestures and unconditional support, which have enriched my life with love and joy.

ACKNOWLEDGMENT

It gives me immense pleasure to thank all those who have helped me in the successful completion of this project.

First of all, I want to thank my parents for their constant love, guidance, support, and everything else that they have provided, because of which I became able to do everything that I have achieved in my life.

I am speechless at the contribution of my esteemed guide, Dr. Kamta Prasad Namdeo, who has been the driving force behind my project. His deep involvement, dedication, support, kind nature, guidance, and encouragement inspire me to excel at what I do, and it is my fortune to work under his guidance.

I am thankful to HOD Ma'am Guru Ghasidas Vishwavidyalaya for his timely words of advice, despite her busy schedule.

I would like to thank my teachers and all other teachers who directly or indirectly guided me in the completion of my project despite their busy schedules.

I would also like to thank all the non-teaching staff of the department of pharmacy for their contributions when required.

And most importantly, I want to thank all my seniors, especially Nirdesh sir, for their support and guidance. I would also like to express my gratitude to Ajay Gupta Sir, Deepshikha Ma'am, Rakesh Sir and all other seniors for their support and guidance.

I want to extend my heartfelt thanks to my friends Yogendra, Sujoy, Vaibhav, Sourav Basak, Arvind, Takeshwar, and all other friends who contributed in some way to the success and smooth completion of my research work.

Finally, I'd like to express my heartfelt gratitude to the Almighty God for providing everything.

Thankful I ever remained...
