ABSTRACT

I did an internship at the Tis Hazari Court in Delhi, from 11th May 2024 to 15th June 2024 under the guidance of Adv. Jatashankar Mishra, who is the Chief Legal Aid Defense Counsel (LADC). I was given comprehensive exposure to many aspects of legal practice while combining theory and practice in law. The things that I did during this period are as follows:

Reading of Case Files: Through reading both civil and criminal case files, I got a deeper sense of what is involved in different types of legal disputes.

Observing Document Attachment: This allowed me to learn how significant correct documentation is in legal proceedings by watching the careful process of attaching appropriate papers to files.

Attending Court Proceedings: I also attended a variety of court sessions where I had an insider's view of the judicial system and how courtrooms come alive.

Watching Judgment Writing: There was this time when I saw what went into writing judgments and grasped the important ingredients that come together for a sound judicial decision.

Witnessing Cross-Examination and Chief Examination: By witnessing both the chief examination and cross-examinations, I learned about attorneys' tactics in eliciting information from witnesses.

Observing Witness Recording: In addition, I learned that accurate and complete recording is important for maintaining the integrity of the judicial system through watching how witness testimonies are recorded.

The internship period served as a perfect platform for me to apply what I had learned in class into real-life situations, thereby bridging the gap between academic and practical field experience, augmenting my comprehension of the legal profession as well as court procedures.

Aditya Prakash Shrivastava, which gave me an opportunity to work practically with the law. The internship revolved around practical court proceedings where I could observe how cases were handled in real-time. Besides, I had a chance to go through case files, research legal issues, and take part in drafting some legal documents.

Client engagement was one of the areas covered in this internship besides court appearances. This element focused on effective communication and empathy as vital factors in the practice of law. Additionally, it has taught me important research skills that enable me to use legal databases and sources efficiently to back up strategies for cases that I handle.

It is wrong to say that I only observed during my time as an intern; rather, it was an experience marked by change. Consequently, I gained a deep understanding connecting abstract legal theories with practical life applications. Importantly, this experience has made me feel responsible for legal advocacy being conducted ethically by me.

ABSTRACT

This Internship Diary encapsulates my immersive experience during a one-month Internship at the CIVIL COURT BOKARO, JHARKHAND undertaken from 18th of May, 2024 to 18th of June 2024. As a first-year law student at Guru Ghasidas Vishwavidyalaya, Bilaspur, Chhattisgarh, this internship provided a valuable opportunity to observe and participate in the practical applications of legal principles.

During my legal internship, I had the opportunity to immerse myself in courtroom proceedings, gaining firsthand experience in the judicial process. My primary responsibilities included assisting attorneys during trials and hearings, taking detailed notes on witness testimonies, and organizing exhibits and evidence for presentation.

Observing courtroom dynamics, I learned about the procedural aspects of litigation, the role of courtroom personnel, and the strategies employed by both defense and prosecution. In addition, I interacted with clients, witnesses, and court officials, enhancing my understanding of client representation and case management. This experience sharpened my skills in legal analysis, oral advocacy, and professional conduct in a court setting.

Additionally, I attended court hearings and observed client meetings, which provided practical insights into courtroom procedures and client interaction. I also participated in case strategy discussions, contributing my findings and analyses to the legal team. This hands-on experience enhanced my understanding of legal concepts and practices, and developed my skills in critical thinking, legal writing, and professional communication.

Overall, this internship was an invaluable experience that solidified my interest in the legal field and prepared me for future legal endeavors.

INTRODUCTION

The Consumer Protection Act 1986 and the Consumer Protection Act 2019 are pivotal legislations in India, aimed at safeguarding the interests and rights of consumers in an ever-evolving marketplace.

While the former served as a pioneering step towards consumer protection, the latter represents a substantial reform to adapt to the changing dynamics of commerce, including the surge in e-commerce activities. The introduction of the Central Consumer Protection Authority (CCPA) and the removal of jurisdictional limitations are just a few of the significant enhancements brought forth by the 2019 act.

These acts, although separated by over three decades, both share the common goal of ensuring consumers are treated fairly and provided with accessible avenues for redressal, with the 2019 act addressing the complexities of modern consumer transactions.

WHAT IS A CONSUMER?

A consumer is an individual or entity that purchases goods and services for personal use, rather than for manufacturing or resale. Consumers are the end-users in the distribution chain of goods and services. In economics, consumers play a crucial role as their demand for products and services drives economic activity and influences market trends. They are the final link in the supply chain, and their preferences and spending habits can significantly impact businesses and the economy as a whole.

Abstract

This internship report amalgamates two distinct legal internship experiences, providing a comprehensive overview of practical engagements in diverse legal settings. **The first segment details a 28-day internship at the Kanpur District Court from June 1st to June 30th, 2024.** It delves into the court's organizational structure, operational processes, and its pivotal role in adjudicating criminal appeals, revisions, sessions trials, and special jurisdictions. The report emphasizes the contributions of magisterial courts and executive magistrates, highlighting courtroom procedures such as cause list maintenance and case management through the Ahmad Room. It also explores bail applications under Sections 437 and 439 of the CrPC and the implementation of the E-Service Court App for digital transformation.

The second segment outlines a separate internship at K.S. Elite Attorneys in New Delhi, conducted from May 5th to June 5th, 2024. Here, detailed case analyses, legal document drafting (including lease agreements and legal demand notices), and extensive research on civil, criminal, and service law topics are central. Participation in online sessions covering diverse legal topics and practical aspects of legal practice further augmented skills in legal drafting, research methodologies, and time management within a legal context.

Together, these internships provided invaluable practical insights into civil and criminal proceedings, administrative operations, and legal frameworks at both the district court and law firm levels. They equipped the intern with essential skills and a nuanced understanding of judicial operations and legal practice, fostering readiness for a successful career in law.

INTRODUCTION

The Consumer Protection Act 1986 and the Consumer Protection Act 2019 are pivotal legislations in India, aimed at safeguarding the interests and rights of consumers in an ever-evolving marketplace.

While the former served as a pioneering step towards consumer protection, the latter represents a substantial reform to adapt to the changing dynamics of commerce, including the surge in e-commerce activities. The introduction of the Central Consumer Protection Authority (CCPA) and the removal of jurisdictional limitations are just a few of the significant enhancements brought forth by the 2019 act.

These acts, although separated by over three decades, both share the common goal of ensuring consumers are treated fairly and provided with accessible avenues for redressal, with the 2019 act addressing the complexities of modern consumer transactions.

WHAT IS A CONSUMER?

A consumer is an individual or entity that purchases goods and services for personal use, rather than for manufacturing or resale. Consumers are the end-users in the distribution chain of goods and services. In economics, consumers play a crucial role as their demand for products and services drives economic activity and influences market trends. They are the final link in the supply chain, and their preferences and spending habits can significantly impact businesses and the economy as a whole.

During the internship, Poorvika assisted us by researching on the matters listed before the Hon'ble District Court of Raigarh, Chhattisgarh. She attended several conferences and meetings with clients and officer-in-charge of the cases on behalf of the Union of India. Poorvika regularly attended hearings in the District Court of Raigarh, Chhattisgarh and she researched and assisted in the matters ranging from Constitutional Law, service law, Criminal law, Family law, arbitration, mining and environmental laws among others. She also helped in preparation of legal opinions and counter affidavits.

Poorvika displayed a high degree of enthusiasm and confidence in tackling the research work assigned to her. She was always willing to put in long hours of work. I found her to have a good grasp over the issues and an ability to quickly research topics using internet sources as well as text books. She has proved herself to be articulate in her drafting Skills. I am certain that Poorvika will attain great success as a student and later at the Bar.

ABSTRACT

This law internship has been a transformative experience, shaping both my personal and professional development as a future legal practitioner. Engaging with real cases, court proceedings, and legal research, I gained invaluable practical insights that bridged the gap between academic theory and real-world application. I observed seasoned attorneys craft persuasive arguments and learned the importance of empathy, effective communication, and translating complex legal concepts for clients. This internship deepened my understanding of legal ethics, strategy, and case management, while also heightening my awareness of the societal impact of legal decisions. The guidance from mentors and the opportunity to witness justice in action have equipped me with the tools and perspectives necessary for a successful legal career. This experience has fueled my passion for law and strengthened my commitment to justice, equity, and continuous learning.

INTRODUCTION

- Adv. Mrs. Amrita Singh has been in the profession of law since 2010 when she was registered in the State Bar Council of Chhattisgarh. She has been in practice now for almost 14 years and she is also a member of District Bar Association. She is a working advocate in revenue court, consumers' forum court, district and sessions court. Her office is situated at Shubham Vihar, Geetanjali Park, Bilaspur (C.G.).
- Her office hours are 10:00 am – 11:00 am in the morning and 7:00 pm – 8:00 pm in the evening. Some days I used to spend in the office to do the work and learn about the drafting, reading and researching. I went to district court regularly with her.
- Ø Vision – Vision of the institution was to deal with clients with all honesty, to provide them with justice in the court of law and always be ready for challenges.
- Mission – The mission of ma'am was always to be strictly punctual, adhere to proper rules and regulations like uniform and formal language and to give her all to her work.
- Goal – My goal was to make the most use of this opportunity and learn all that I can. I wanted to gain every knowledge that I could get all around me and I used to ask a lot of doubts to clarify on everything. The goal is always to learn and grow.

Generally, I was given tasks like noting down the deposition in court during cross examinations, helping in bail petition drafting, observe the drafting of Negotiable Instrumental Act, read case law files and their respective bare acts (civil and criminal), observed court proceedings, arguments, main-examination and cross-examinations of witnesses in the court. She also taught me how to send a legal notice.

ABSTRACT

This internship report details my enriching and educational experience at the High Court of Prayagraj under the esteemed guidance of Advocate Mr. P.R. Maurya. Over a 28-day period, I immersed myself in various aspects of legal practice, significantly enhancing my understanding and application of law.

During this internship, I engaged in diverse legal activities, including reading and analysing judgments, understanding legal principles, and observing court proceedings. Notable cases I studied involved the Indian Arms Act, Negotiable Instruments Act, and several sections of the Indian Penal Code (IPC) and Criminal Procedure Code (CrPC). For instance, I examined cases like Shravan Kumar vs. Commissioner Division Lucknow under the Indian Arms Act, and Rajendra Singh vs. State of U.P. concerning the U.P. Secondary Education Service Commission Act. These experiences provided practical insights into legal reasoning, case law analysis, and courtroom dynamics.

I also explored procedural aspects such as the registration of FIRs under Section 154 CrPC, preliminary inquiries, and the nuances of Sections 202 and 156(3) CrPC. This included understanding the implications of landmark cases like Lalita Kumari vs. Govt. of U.P. for FIR registration and Adil vs. State of U.P. for further investigation directives.

The internship also involved attending to administrative duties and engaging with clients, which underscored the importance of meticulous documentation and client interaction in legal practice. Interacting with seasoned attorneys and witnessing their commitment to justice has profoundly inspired my dedication to a legal career.

In conclusion, this internship has been instrumental in bridging the gap between academic knowledge and real-world legal practice. It has not only deepened my legal acumen but also solidified my aspiration to pursue law with increased dedication and a clearer understanding of the professional landscape.

Introduction of the Project

After completion of my 3rd semester, as a law student I was required to utilize my holidays by doing internship under either an advocate, law firm or in NGO. So, I chose and applied under an advocate, Mr. Awadhesh kr jha.

He is a very diligent person and has good knowledge.

jurisdiction and in petitions under article 227, High Courts exercise their supervisory jurisdiction.

May 22 (Day 6)

Today I read many previous cases and their related documents and with the same I read provisions under which those cases were filed and argued. It was fun to relate a real case with theories and provisions we read and learnt.

Things Learned: Daily ongoing of courts, process of filing, legal terminology, process of drafting, court manners etc.

Places gone to: Advocate's Office, District Court (Sheikhpura) and High Court (Patna).

Learning Outcome

Internship is all about practical knowledge, experience and learning. I got all these experiences throughout my internship. Being my first internship experience, it was an astounding one for me.

I learned about various terminologies, which were all synonyms for me before coming here. I also learned about hierarchy of courts.

I learned various practical aspects of law. I also learned how to apply law which we study theoretically in a practical situation. I learned how to distinguish that which type of case is a specialty of a judge.

I learned about Right to Information Act, 2005 which is a very good act for getting information from the public authorities. And I also learned many things like court manners, where to sit in the court, how to greet judges and lawyers.

My internship covered various areas and did not confine to any particular topic. We discussed law and other things exhaustively and shared our views on various other things we came across.

Application of learning outcome in academics, daily life and future profession

What I learned will be used in academics in proceeding years. This internship cleared a lot of my misconceptions and distinguished various aspects of law. It changed my view to look upon things and circumstances.

The first and the foremost thing which I got from this internship is the habit of reading legal news and updates daily which will help me in updating my legal knowledge and build up my understanding towards law.

नियम विभाग / Department of Law
गुरु गणेशदास विश्वविद्यालय,
Guru Ghaikdas Vishwakavidyalaya,
बिलासपुर (छ.ग.) / Bilaspur (C.G.)

I read the formats of different types of documents which will help me in professional arena. This internship made me realize by interacting with intellectuals, students and other legal professionals that this field is all about public relation.

It will improve my language which I needed the most and it also gave me guidance to build good resumes and cover letter which will attract a good legal attribute to me.

Therefore, whatever I learned and experienced here was very relevant, important and practical. It will help me in my academics as well as my practical life too.

Thank you!

Major challenges faced and resolved

Well, the biggest challenge was the internship itself, knowing that one will have to go there every day for a month because you just cannot miss it. It gave me a hint of how hard life can be and without hard work nothing can be achieved. Being there as an intern, at a new place, is different and exhausting. Understanding and distinguishing between terminologies pertaining same meaning was a challenge to me.

I really had no idea of how I was going to keep pace with this in long 07 to 01 p.m routine. But later on, I realized that I am learning many things and developing the skills. And I think that I am ready to experience the same for longer duration now.

I was facing problem in reading judgments and classifying its content into various heads in the beginning but now it has become a bit easier. Socializing with co-interns was also a difficult task as they were from a totally different place and following a totally different pattern of life. But later on everything went easily and nicely.

Conclusion

I am really thankful to Guru Ghasidas Vishwavidyalaya for providing this opportunity in the first year itself. I practiced, I learned, I faced problems but it was an amazing, astonishing experience for me. It gave me a real view to look upon law. It also gave me some habits of learning legal news daily and a sort of staying in court or office for 10 to 6 was also a great experience. Now I'm much excited about by next learning experience. I hope that I get more and more such opportunities in later times.

ABSTRACT

My internship at the Chhattisgarh Human Rights Commission was a transformative experience, offering deep insight into the intricate world of human rights law. As an intern, I actively engaged in legal research, prepared case briefs, and examined complaints of human rights violations with a keen focus on both individual and systemic issues. Observing the grievance redressal process firsthand, I witnessed how the commission works in collaboration with various government bodies to ensure justice and accountability. I also contributed to discussions surrounding the enforcement of human rights laws and assisted in drafting reports that aimed to strengthen legal frameworks. This hands-on experience not only deepened my understanding of human rights but also underscored the challenges and importance of upholding them within a legal and societal context.

I started interning with Mrs. Shashikala Jangde from 13 may 2024 to 9 june 2024 . Her office is located at chamber no. 1 , District Court , Janjgir , Chhattisgarh.

I secured this internship through personal contact.

One skill that I immediately took note of was time management.

During 28 days of my internship , the things I learned during my internship can be enumerated as :-

Reading of case files

I was asked to read case files include those which came there for appeals. First time , I was unable to relate the documents placed in the file as it Contained the petition, written statement, lower court orders and judgement and if they are at advanced stage . Then I took assistance of the lawyers working there to teach me practical aspects of the court proceedings and what exactly each documents mean. I read case files related to Disputes, Divorce under section 13 of HINDU MARRIAGE ACT, 1955 .

Court Visit

On the first day , I was asked to visit court rooms to witness the court proceedings. I was advised to take note of everything that happens in a court room. I heard few cases. They were related to NDPS. That day I learnt how a judge entertain the argument of an advocate and what the mannerism an advocate needs to follow before the court.

निति विभाग/Department of Law
गुरु गणेशदास विश्वविद्यालय,
Gurni Ghaekdas Vishwakavidyalaya,
बिलासपुर (छ.ग.)/Bilaspur (C.G.)

I visited the court with my lawyer. He was to represent a NDPS case. We were representing the state side. I just went for 10 minutes and next date was given , which was after 14 days.

Cross Examination

I also learnt how cross examination is to be done. While crossing the witness never allow him/ her to be confident ask them twisted question so that they become nervous and are not able to answer properly.

Client Interviewing

I was also given the opportunity to sit during discussion with clients . I observed that my lawyer listened him patiently and allowed him to finish . He asked some questions from the client in order to get the full facts and to get the clear picture of the client's case.

After listening the patiently , my lawyer assures the client you no need to worry case is in out favour and going in our favour.

I learnt that Lawyer must ensure the client that he is listening and also understanding his situation.

Lawyer can reflect these by noting the points and by interacting with the client. I witnessed the counselling related to the matter of divorce.

Chhattisgarh Lok Ayog

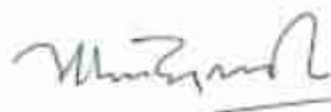

Chhattisgarh Lokayog is the Parliamentary Ombudsman for the state of Chhattisgarh (India). It is a high level statutory functionary, created to address grievances of the public against ministers, legislators, administration and public servants in issues related to misuse of power, mal-administration and corruption. It was first formed under the Chhattisgarh Lok Ayog Act, 2002 and approved by the president of India. The passage of Lokpal and Lokayukta's Act, 2013 in Parliament had become law from January 16, 2014 and requires each state to appoint

its Lokayukta within a year. A bench of Lokayukta should consist of judicial and non-judicial members. An Upa-Lokayukta is a deputy to Lokayukta and assists him in his work and acts in-charge Lokayukta in case the position falls vacant before time.

A Lokayukta of the state is appointed to office by the state Governor after consulting the committee consisting of State Chief Minister, Speaker of Legislative Assembly, Leader of Opposition, or leader of largest opposition party in State Legislature, Chairman of Legislative Council and Leader of Opposition of Legislative Council and cannot be removed from office except for reasons specified in the Act and will serve the period of five years.

Objective

The objective for setting up the Lok Ayog Organization was to effectively deal with the cases of the misconduct, abuse of power and corruption on the part of the public servants so that governance in the state improves.

History & Administration

The need to establish an institution like Lokpal in India was being felt time and again. The Administrative Reforms Commission, in its report presented in October 1966, "under the difficulty of resolving the problems being faced by the Indian citizens, in relation to administrative corruption, maladministration, misconduct, failures and lack of honesty and ability in the required standards of administration". Presented about the treatment in relation. After analyzing the facts, the system available to Indian citizens to solve the above problems and presenting a new system in its place was also considered. Institutions available in the immediate time like - Parliament, Administration (Executive) and Judiciary (Courts/Tribunals) were always out of reach of common citizens due to various reasons such as excessive delays, high fees and burdensomeness of cases etc. In addition, the Commission also observed that many cases were due to executive requirements. Lokayuks like parliamentary commissioners in Scandinavian countries and Commonwealth countries in view of the above reasons. The Administrative Reforms Commission constituted under the chairmanship of Late Shri Morarji Desai When the state of Chhattisgarh was under the state of MP, at that time the MP Lokayukta and Uplokayukta Act 1981 was in force. e.g. Even after the formation of the state, the same Act was passed by C.G. was adapted for the state, but later in C.G. The government, exercising its powers, enacted a separate Lokayukta Act, which came into force in the year 2002 as Act No. 30 and by which the earlier Act No. 37/31 was repealed. e.g. The provisions of the Special Police Establishment Act 1947 were not adapted in this new act in the state. Also, the Divisional Committee Rules, 1995, which were there in the earlier Act, were also not implemented.

Chhattisgarh Lokayog Act-2002 was passed in the Chhattisgarh Assembly and was effective from year 2002. As per the Act, the Lokayog will form an authority or authorities who shall investigate the complaints of misconduct by public servants after receipt of complaint by it. The Act makes provision for completion of enquiry within 3 months on a case of corruption referred to the Government by Lokayog. The Act has been passed to create the position as two member institution with Lokayukt Chief being from Judicial background and Lok Ayukt being from bureaucracy. Chhattisgarh LokAyog had introduced a system of penalties against persons filing wrong complaints for cases covered under Chhattisgarh Lok Ayog Act, 2002 after giving them an opportunity of

In 2013, on a complaint referred by Chhattisgarh Lokayukta, Chhattisgarh Government in 2013 had set up Enquiry Committees to probe corruption allegations against its employees.

"I, <name>, having been appointed Lokayuka (or Upa-Lokayukta) do swear in the name of God (or solemnly affirm) that I will bear faith and allegiance to the Constitution of India as by law established and I will duly and faithfully and to the best of my ability, knowledge and judgment perform the duties of my office without fear or favour, affection or ill-will."

Chhattisgarh Lokayog has complete and exclusive authority for enquiring into allegations or complaints against the State Chief Minister, State Deputy Chief Minister, Ministers of the state Government, Leader of Opposition and Government officials. The institution has powers to investigate and prosecute any government official or public servants who are covered by the act and abuses his authority for his self interest or causes hurt to anyone or any action done intentionally or following corrupt practices negatively impacting the state or individual.

Lokayog of Chhattisgarh is **Justice TP Sharma** who succeeds Justice Shambhu Nath Srivastava, a former retired judge Allahabad High Court and will head a two member team with a term of five years or reaching of the age of 70 years, whichever is earlier.

Chhattisgarh Lok Ayog Chairperson will be appointed by Governor along with other members who are recommended by a committee headed by Chief Minister and other members being Speaker of Assembly and Opposition Leader in Assembly, or elected leader of the largest opposition party in Assembly.

Case No.- 155/2021 (Complainant) - Unknown

vs

(Public Servant)- Officer Employee C.G. Lok Ayog Application Date- 11/11/2021

Facts of the Case:

An anonymous complaint was received, in which well wisher is written in place of sender. The name of the sender is written in the envelope as a well wisher and nothing is mentioned.

Following are the facts of the complaint Lok Aayog is a white elephant Darkness under the lamp for justice In today's era, when the need of Lokayog is very high, then it has become a white elephant and it is proving to be dark under the lamp for justice. In the present time, it has become like a boon for the sluggish officers and people on deputation, as many people who are sick or who have other problems, those people are coming here after reaching higher and living a comfortable life. If they come to the office for 2 or 3 days in a week, then it is like a grace at the office. Even if they come, they do not spend more than 1 hour or 2 hours in the office. All this is happening right under the nose of the Speaker of Lokpal and it seems as if his undeclared surrender is in front of him and he is afraid of these people, which is ridiculous.

People directly transfer Lokayog from above without the permission of Lokayog and come here and go out after educating the people and Lokpal.

Many employees here do not live in the office, everyone has their own business, the personal secretary of Lokpal Sahib himself comes to the office for 01 hour every day and disappears.

Lokpal sahib sweats in getting all these probed. In this way, the hard earned money of the people of Chhattisgarh is being spent on this white elephant. The women officers of the department come in the fashion parade and only eat samosas, eat sweets, eat aloo goonda and get the plates washed by the servants. Public money should be saved by closing such Lokpal.

Procedure:

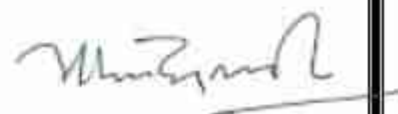

Lokpal Speaker Sir, I request you to do something, otherwise I will send this complaint to the Prime Minister's Office, Governor's Office, Chief Minister's Office and all the ministries with my name, address and village. I have a lot of respect for Judge Sahib, that's why I am telling you, take care of your office and save people's hard earned money from being looted. Circular A Honorable well wisher " In fact, the complaint is in relation to the employees/officers of this commission and also against the Pramukh Lokayukta, in the last paragraph of which there is also a threat that if no action is taken, the complainant will

complain with his name, address to the Prime Minister, Governor, Chief Minister and Will do all the ministries. The complaint is neither in proper format, nor is the court fee and affidavit attached. It appears from the complaint that the complainant does not want to follow the procedure of this Commission or is aggrieved by it or any employee working in this office is not getting any undue advantage. No specific facts have been mentioned in the complaint.

Conclusion

In such a situation, it is not possible to take cognizance of the complaint, but it is necessary to give instructions regarding the daily attendance and timing of the employees. Therefore, the Secretary is directed to issue circulars to all the employees and issue strict instructions regarding coming to office on time and work and keeping a close watch on the time of movement of employees and the time of work. CONCLUSION

First of all, I **Yash Chandrakar** would like to thank Lok Ayog for giving me this wonderful opportunity for being part of their prestigious work. Overall, as a law student and a citizen of India one should know their rights imposed upon them and violation of such rights is an offensive act. So, by interning here in this commission it was an opportunity to know the practical aspect of how much extent public servant can misuse their power and Lok Ayog take cognizance and take strict action against them. Everyone needs to suffer cause public servant are so powerful no one takes action but the sole purpose of this Ayog is to protect from the government employees whom misuse their power so that is why everyone is thankful for this Ayog. Opportunity to know the procedure followed. It was an opportunity to implemented of citizens rights which are violated by public servant. As a law student, we can fight and give justice to the people whose right being snatched away by some unscrupulous people prevailing in our society, dominancing their power and hence can render punishment to them and can hope to bring some quality changes in our country by this Ayog. The victim or any other person on their behalf can approach this commission or by post can file a complaint. The Cases dealt within this report by me have provided to me with a deep insight into how this Ayog works to fulfill the objective of protecting the innocent rights from public servant.
