

**COMPUTATIONAL ANALYSIS OF SELF-EXCITED ACOUSTIC RESONANCE IN
CO-AXIAL SIDE BRANCHES DUE TO FLOW**

**A dissertation interim evaluation submitted in partial fulfillment of the requirement for
the degree.**

Of

MASTER OF TECHNOLOGY

(Machine Design)

Submitted by

HITESH SHRIWAS

Under the supervision of

Mr. BHUSHAN SINGH GAUTAM

(Assistant Professor)

Department of Mechanical Engineering

School of Studies of Engineering and Technology

Guru Ghasidas Vishwavidyalaya (A Central University)

CERTIFICATE

As per University Grant Commission (Promotion of academic integrity and prevention of plagiarism in higher education institute) regulation 2023 dated 4th October 2023 thesis **“COMPUTATIONAL ANALYSIS OF SELF-EXCITED ACOUSTIC RESONANCE IN CO-AXIAL SIDE BRANCHES DUE TO FLOW”** of **HITESH SHRIWAS**, a student of **M. TECH (Machine Design)** 4th semester has been checked by DRILL BIT software available at Central Library, Guru Ghasidas Vishwavidyalaya (A Central University), Bilaspur, Chhattisgarh, INDIA. The amount of similarity in the thesis report is A signed DRILL BIT similarity report is attached to the certificate.

CERTIFICATE BY EXAMINERS

This is to certify that the "Thesis" entitled, "COMPUTATIONAL ANALYSIS OF SELF-EXCITED ACOUSTIC RESONANCE IN CO-AXIAL SIDE BRANCHES DUE TO FLOW"

Submitted by

Mr. HITESH SHRIWAS

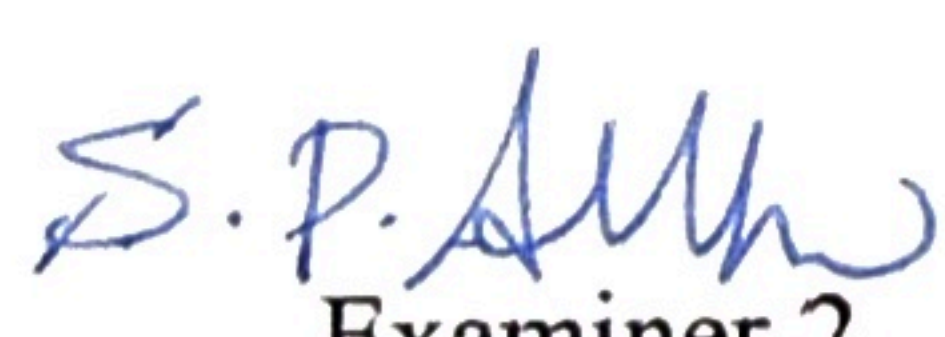

Roll no. – 21040106

Enrolment No. – GGV/21/01606

Has been examined by the undersigned as a part of an examination of Master of Technology (Machine Design) at the Department of Mechanical Engineering, School of Studies of Engineering and Technology, Guru Ghasidas Vishwavidyalaya (A Central University), Bilaspur, and Chhattisgarh, INDIA. The dissertation is found to be satisfactory.

Examiner 1

Date: 10/1/2024

Examiner 2

Date: 10/01/2024

Examiner 3

Date: 10/1/24.

TABLE OF CONTENTS

CANDIDATE'S DECLARATION.....	I
CERTIFICATE.....	II
CERTIFICATE BY EXAMINERS.....	III
ACKNOWLEDGEMENT.....	IV
ABSTRACT	V
TABLE OF FIGURES	VIII
CHAPTER 1	1
INTRODUCTION	1
1.1 Research Background and Motivation	1
1.1.1 Classification of the Cavity.....	2
1.1.2 Mechanism of Noise Generation	2
1.1.3 Description of Acoustic Modes	3
1.1.4 Frequency of Resonance.....	3
1.1.5 Quarter-wave Resonator	3
1.1.6 Suppression Techniques	4
1.1.7 Computational Fluid Dynamics (CFD).....	4
1.2 Aims and Objectives of the Research Work.....	5
1.3 Outline of the Research Work	5
CHAPTER 2.....	6
LITERATURE SURVEY	6
2.1 Experimental study of Flow-excited Acoustic Resonance.....	6
2.2 Suppression of Flow-excited Acoustic Resonance.....	7
2.3 Computation Fluid Dynamics (CFD) Study	10
2.4 Summary.....	12
2.5 Literature Gap.....	12
CHAPTER 3	13
PRINCIPLE AND THEORIES	13
3.1 Introduction	13
