

Stability Analysis of Fluid Flow Through Flexible Tubes

Department of Chemical Engineering

MENTOR'S NAME: SATYAJIT BHATTACHARJEE

SUBMITTED BY: AMISHA KUMARI

ROLL NO. :22021109

Index:	page no.
1. Introduction	03
2. Literature Review	04-05
2.1 Early Works on Flexible Boundary Effects	
2.2 Experimental Studies on Flexible Tube Flows	
2.3 Theoretical Analyses of Flexible Tube Flows	
3. Work Done	06-08
3.1 Assumptions	
3.1.1 Fluid Model	
3.1.2 Solid Model	
3.2 Governing Equations	
3.3 Velocity Profile Analysis	
4. Applications	09
4.1 Biomedical Applications	
4.2 Microfluidic Devices	
4.3 Polymer Processing	
4.4 Energy and Environmental Systems	
5. Future Scope and Opportunities	10
5.1 Addressing Non-linear Effects	
5.2 Incorporating Realistic Material Properties	
5.3 Multiphysics Coupling	
5.4 Experimental Validation	
5.5 Advanced Computational Techniques	

CERTIFICATE OF APPROVAL

This is to certify that the project entitled “ **Stability Analysis of Viscous Flow Through Flexible Tubes** “ a review report submitted by **Amisha kumari(22021109)** in fulfillment of requirement for the degree of **Bachelor of technology in Chemical Engineering** is a record of bonafide and original research work carried out by them under our guidance and this project does not include any work which has previously been submitted for the award of other degree ,diploma, associate-ship , fellowship, or other similar title of them. We, further clarify that the work report in this project was carried out independently by the candidate .

Approved by

Dr. Raghwendra Singh Thakur

Head

Department of Chemical Engineering

School of Studies Engineering and

Technology Guru Ghasidas

University Bilaspur , Chhattisgarh

Guided by

Satyajit Bhattacharya

Assistant Professor
