ABOUT THE COMPANY

Siemens is a global powerhouse focusing on the areas of electrification, automation and digitalization. One of the world's largest producers of energy-efficient, resource-saving technologies, Siemens is a leading supplier of systems for power generation and transmission as well as medical diagnosis.

The company founded its first branches in Bombay (Mumbai) in 1922. But Siemens' history in India goes back a lot farther – to **1867**, when Werner von Siemens and his brothers laid the groundwork for the Indo-European telegraph line from London to Calcutta. We are a technology company focused on industry, infrastructure, transport, and healthcare. From more resource-efficient factories, resilient supply chains, and smarter buildings and grids, to cleaner and more comfortable transportation as well as advanced healthcare, we create technology with purpose adding real value for customers. By combining the real and the digital worlds, we empower our customers to transform their industries and markets, helping them to transform the everyday for billions of people.

Siemens Limited is a technology company focused on industry, infrastructure, digital transformation, transport as well as transmission and generation of electrical power. It is the flagship listed company of Siemens AG in India. The company's business structure is well oriented in meeting the needs of the industry in improving efficiency, quality, flexibility and
