## 1. INTRODUCTION

### About The Tyre Industry:

The tyre industries in India come into existence with establishment of trading outlets by US based Fire Stone Tyre and Company in 1922 and followed by Dunlop Rubber Company in 1926. The India Tyre industry has witnessed a Cumulative Annual Growth Rate (CAGR) 7.7% over the last decade. Economic expansion investment and road development have all contributed to this.

Increase in demand for vehicles. This has helped the growth in the industry. The tyre industry is the major consumer of the domestic rubber production. The tyre industry is mainly dominated by organized sector; the unorganized sector holds in bicycle tyre. The major player in the organized sector consist of MRF, Apollo tyres, Ceat and J K Industries, which account of the 63% of the organized tyre market.

## **About Madras Rubber Factory (MRF)**

MRF Limited, originally known as Madras Rubber Factory, is a prominent Indian multinational corporation that is primarily engaged in the manufacturing and distribution of tires and rubber products. Founded in 1946 by K. M. Mammen Mappillai in Chennai, India, MRF has grown to become one of India's leading tire manufacturers and is recognized globally for its quality and innovation in the tire industry. Since then, it has emerged as the largest tyre manufacturer in India and 12<sup>th</sup> largest in the world with turnover of Rs 10637 Cr. With capacity if six million tyres from six production units in India. With a profit margin of 1.3% in tyre manufacturing sector, MRF hold 24% of market share. MRF tyres are rolled out of six interdependent facilities, which are built over 450 acres and with over 15,000 dedicated people. MRF has over 3000 strong dealer networks with 180 offices. What this means is the company boasts of the largest range of tyres in India from heavy duty tyres to 2-wheeler tyres, The MRF Pace Foundation is synonymous with training and teaching the world's best fast bowlers.
