ABOUT COMPANY

Dassault Systèmes stands as a prominent worldwide leader in the domains of 3D design, digital mock-up, and product lifecycle management (PLM) solutions. Spanning numerous countries and industries, the company plays a pivotal and influential role in shaping the future of technology.

Dassault Systèmes boasts a substantial global presence, with a network of offices, an extensive customer base, and numerous collaborative partners scattered across the globe. This expansive reach underscores the company's profound significance in the ever-evolving landscape of the tech industry.

The core of Dassault Systèmes' operations is intricately intertwined with data analytics. The company harnesses the formidable power of data to elevate the realms of product development, innovation, and decision-making, which profoundly impacts and enhances the quality and scope of its diverse offerings.
