

National Summer Internship on RS and GIS Training on QGIS

A National Summer Internship on Remote Sensing (RS) and Geographic Information System (GIS) training, focusing on QGIS software, was organized by the Department of Forest, Wildlife, and Environmental Sciences at Guru Ghasidas Vishwavidyalaya (GGV) from May 13 to May 17. The internship attracted a total of 40 participants who engaged in hands-on learning with QGIS, gaining practical skills in GIS and RS applications.

The training program featured Dr. Manoj Kumar and Dr. R.K. Singh, experts from the prestigious Forest Research Institute (FRI) in Dehradun, as the primary trainers. Under their guidance, participants explored various aspects of QGIS software and its application in environmental and forestry sciences.

The event was coordinated by Dr. Ajay Kumar Singh, who managed the training schedule and ensured the smooth conduct of sessions. Professor K.K. Chandra served as a special guest, while Professor S.C. Tiwari graced the program as the chief guest. Both guests emphasized the significance of RS and GIS technologies in the field of forestry, highlighting their critical role in environmental management and conservation.

Other distinguished experts who contributed to the training included Dr. Alok Kumar Chandrakar, Mr. Sudhir Ranjan Choudhury, and Mr. Ashutosh Anand. These experts enriched the training by sharing their insights and experiences in GIS applications and environmental sciences, making the internship a valuable learning opportunity for all participants.
