ABSTRACT

Summer training offered by **R.C.D. Division No-1, Gaya** was a fortunate opportunity for me during my third year of under-graduation. It helped me apply my theoretical knowledge gained during the university's academic programme to real-world industrial based execution and experience professional construction process. It helped me enhance my skill and enrich my industrial knowledge by keeping me up-to-date with the latest technologies. This opportunity extremely helped me gain exposure into an environment where I could think as a civil engineer.

I had my training experience from 16/05/2024 to 18/06/2024 at R.C.D. Division No-1, Gaya. This report's documents contain the knowledge and experience I have gained through my industrial training at R.C.D. Division No-1, Gaya.
