

Report on “Departmental level cleaning drive under Swachchhta Pakhwada Programm” held on 10/09/2018 (3:00 PM TO 5:00 PM)

A departmental level cleaning drive is organized by the various departments existing under the campus of Guru Ghasidas Vishwavidyalaya under “Swachchhta Pakhwada Programm” as per directive received by MHRD. The program was organized by the departments with the objective to provide an equal platform to all the students, faculty members, staff member’s etc., where everybody will have a chance to equally participate for their workplace. The cleanliness is carried out by the departmental members inside and outside the departments, which included cleaning of classrooms, offices, laboratories, gardens, uprooting of weeds, cleaning of the nearby area and ground etc. Polythenes, plastics, waste materials and unused papers are also cleaned by the volunteers.

The program was well organized at the campus and the same motivated the students towards personal cleanliness as well as cleanliness of surroundings. The cleaned environment was recognized by the students and the departmental members, which created a sense of awareness to them to be always ready to make, manage and clean their local surroundings, cities, houses, lanes, parks or other public places etc. The same aroused the aspiration to them towards cleaner, greener and beautiful locality to live in. The program successfully inculcated the behaviour in the participants for keeping their surrounding clean and sanitized. The photographs are attached with the report to illustrate the efforts implicated by the concerned to maintain cleanliness in the GGV campus.
