05-11--2024	Session III& IV (1.5 hours each)	Mrs. Anamika Turar	85

Brief Abstract of the Event

Art and crafts are something we learn when we are young when we are children in school. Due to lack of attention and funding, it is always usually the first thing to be removed from the curriculum. But now, NEP 2020 gives more attention to experiential learning through art integrated in the curriculum. We are aware that art instruction helps children with the development of motor skills, language skills, social skills, decision-making, risk-taking, and inventiveness. Visual arts teach learners about color, layout, perspective, and balance: all techniques that are necessary in presentations (visual, digital) of academic work.

For visualisation mouldit is one the art form to helps learner to create shapes and 3D works of all art like wall hangings, vases, murals, etc. Get the mold-ability of clay coupled with the binding strength of epoxy resin with Fevicyl Mouldit! A self-hardening product, Mouldit requires no baking and is extremely easy to use. This activity engages children's sense of touch, sight, and sound, and helps develop their fine motor skills and hand-eye coordination. This activity also encourages children to explore their creativity, imagination, and self-expression, which can boost their confidence and emotional well-being.

Hence, Department of Education, and Skill Development Cell, Guru Ghasidas Vishwavidyalaya, Bilaspur, Chhattisgarh has jointly organised a one-day offline workshop on "Art and Craft" on November 05, 2024. The workshop is also supported by Pedilite Industries.

The Convener of the workshop was Dr. Jyoti Verma, Assistant Professor, Department of Education, Guru Ghasidas Vishwavidyalaya, Bilaspur (C.G.). The workshop was started with the inaugural function in which chief guest of the programme were Prof. Shailendra Kumar, DSW, GGV, Bilaspur, and Prof. C. S. Vazalwar, Dean, SOS Education and both the expert Mrs. Rashmi Chauhan and Mrs. Anamika Tuar were attended the event.

Objectives of the Prorgamme: the proposed workshop enables the participants to;

- Develop positive attitude towards implementation of art integrated pedagogy in their teaching
- Helps to value and recognize the importance of local art and craft work.

- Guide teachers to create a cost effective TLM for teaching.
- Learn lifelong values of teamwork and individual responsibility in daily tasks in a healthy environment.
- Build individual character, confidence and skills through a wide range of art and craft activities.

The target audience for the workshop were B.Ed. and B.Ed. Special Education (HI) & (LD) III Semester. Total 100 students registered for the workshop and out of 100 a total 85 students participated for the workshop. At the end of programme snacks and certificate will be awarded to the participants.
