### Report on ECE Lecture Series

< Department of Electronics & Communication Engineering >

Date of Event : January 21, 2025

Venue : Department of Electronics and Communication Engineering, School of Studies (Engineering & Technology), GGV Bilaspur

The brochure is for an ECE Lecture Series event. At the top, it features the university's name in Hindi and English, along with its establishment details. Below this are logos for Y2, IEEE, and other affiliations. The main title 'ECE LECTURE SERIES' is prominently displayed. It is presented by the IEEE GGV Student Branch & IEI (ECE Chapter) from the Department of Electronics and Communication Engineering. The topics to be discussed are 'Empowering AI systems' and 'Artificial Intelligence for Healthcare'. The event is scheduled for January 21, 2025, at CR 04. Two speakers are featured: Prof. (Dr) Jose Machado, 'The International Dignitaries', and Prof. (Dr) Paulo Novales, also 'The International Dignitaries'. Each speaker's name is accompanied by a circular portrait.

A Brief Abstract of the Event:

The ECE Lecture Series, jointly conducted by SILICON and the IEEE Student Chapter, was organized by the ECE Department at Guru Ghasidas Vishwavidyalaya and held on 21st January 2025 at CR04. The event commenced with a warm welcome by Siama Naseem (VI th Sem.) and Avinash V atsa (VIII th Sem.), who acknowledged the presence of the Head of Department, faculty members, students, and the esteemed guest speakers, Prof. (Dr.) José Machado and Prof. (Dr.) Paulo Novais. As a token of respect and appreciation, the guests were welcomed with bouquets.

Prof. (Dr.) José Machado, an Associate Professor at the University of Minho, delivered the first lecture. With expertise in AI, Medical Informatics, and Computer Engineering, he has contributed significantly to research, teaching, and innovation. He co-authored the award-winning AIDA platform and has been instrumental in the advancement of knowledge engineering. The second lecture was presented by Prof. (Dr.) Paulo Novais, a Full Professor of Computer Science at the University of Minho and Director of ISLab - Synthetic Intelligence Lab. His research spans AI, Decision Making, Digital Assistants, and Conflict Resolution. He has played a key role in AI development through his leadership in LASI and contributions to EU and national research initiatives.

A dynamic Q&A session followed, where students and faculty actively participated, seeking clarifications and discussing key aspects of the lecture. The session fostered meaningful conversations and further deepened the understanding of the subject. As a gesture of appreciation, mementos were presented to both guest speakers to honor their valuable contribution to the event. The event concluded with a vote of thanks, expressing gratitude to the guest speakers, organizing committee, faculty members, and students for their enthusiastic participation. The lecture series was highly informative and received positive feedback from attendees, making it a successful academic initiative.
