CLOUD COUNSELAGE

IT & MANAGEMENT CONSULTING & SERVICES

EXPERIENCE LETTER

To Whomsoever It May Concern

Date: 10-07-2024

This letter is to certify that Gunjan Kumar has successfully completed internship with Cloud Counselage Pvt. Ltd. as Web Development Intern for 6 weeks starting from 15 May 2024 to 30 June 2024.

During this engagement, Gunjan has abided by the company policies, attended various industryspecific training sessions, and successfully submitted the required project deliverables by following the best practices and project management practices.

Throughout the internship **Gunjan** has worked ethically, followed the instructions, performed necessary research, and worked with minimum supervision. The delivery of the project demonstrates their domain knowledge and skills, a structured approach to problem solving, ability to follow instructions, and inclination to work hard.

This association has been beneficial for us, and we wish Gunjan all the success in their future endeavours.

For CLOUD COUNSELAGE PVT. LTD.,

Subhi Shildhankar

Co-Founder & Director (HR)

2. ABOUT THE INTERNSHIP

2.1 Introduction

1

In the summer of 2024, I had the opportunity to undertake an internship in web development at Cloud Counselage Company. This internship provided a comprehensive introduction to the field of web development, combining practical experience with professional guidance in a real-world setting.

2.1.1 Internship Objectives

The primary objectives of my internship were to:

- 1. Gain Practical Experience: Apply theoretical knowledge of web development in a real-world environment.
- 2. **Develop Skills:** Enhance technical skills in frontend and backend development, including proficiency in various programming languages and frameworks.
- 3. Contribute to Projects: Assist in the development of live web applications and contribute to ongoing projects within the company.
- 4. **Understand Industry Practices:** Learn about industry standards, project management, and best practices in web development.

2.2 Tech Stack Used

The following are the tech stacks which I used to complete the project during the internship

2.2.1 HTML

HTML (Hypertext Markup Language) is the foundational technology used to create and structure content on the web. It provides the basic building blocks for web development by defining the structure of web pages using a system of tags and attributes. HTML is essential for creating and organizing content such as text, images, links, and multimedia elements on a webpage.
